

“All your employees can be GREAT”

“This is the founding principle of etimes2. We fully believe that all employees have the potential to be great – great employees and great ambassadors for your company.”

Nigel McPolin, CEO & Founder of etimes2 Ltd

Do you want engaged employees committed to doing a great job every day?

How can you get your line managers to continually reflect and develop so they engage their teams?

The Pain

83% of UK employees are not engaged at work (HR Review, 2015)

Disengaged employees:

- Are absent on average 6.2 days per annum
- Are less productive by 22%
- Experience a 60% drop in quality
- Experience a 1,000% increase in errors
- Are less likely to meet your customers' needs

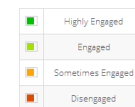

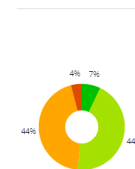

The Solution

Etimes2 is a complete on-line employee engagement software platform which is created and supported by Occupational Psychologists designed to take organisations through all the steps required to conduct employee feedback, implement action plans and build sustainable engagement across the workforce.

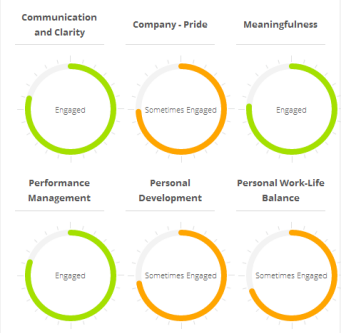

The etimes2 '4 Level' Solution

Employee Engagement

Engagement Drivers

What our customers say

“Hughes Insurance are excited to launch The Etimes2 Engagement Tool throughout our business. Its unique and remote functionality suits our business perfectly as we strive to build a creative and engaging culture, whilst ensuring we meet the needs of our customers.

We anticipate high participation levels from our staff who are keen to share their voice and be involved in solving real life business problems.”

Sarah Billingsley, HR Manager, Hughes Insurance
